

What do I want to learn or understand better?

As we are set on using Flutter for our web application, I am looking forward to learning more about the platform. Also, I am intrigued about how to connect our application to a firebase backend.

How can I help someone else, or the entire team, to learn something new?

I am experienced in programming languages such as Java, Python, Dart, SQL and PHP. I am certain that this will prove useful for our team.

What is my contribution towards the team's use of Scrum?

I created all the tasks on our Jira board and completed one of them – creating the Business Model Canvas.

What is my contribution towards the team's deliveries?

I have created the Business Model Canvas and helped writing our Project Scope.
